

MISSION STYLE QUILT STAND

COMMITMENT TO EXCELLENCE

We want you to be pleased with our products and our service, so if you need verbal assistance with the assembly or hanging of any of our quilt display products, or if you have any suggestions on what we can do to improve our service to you, please feel free to contact us in any way listed here:

By phone at **(937) 506-0032**, by e-mail at **comment@quiltdisplayproducts.com** or by visiting our website at **www.quiltdisplayproducts.com**.

EXAMINE THE PACKAGE CONTENTS

Carefully examine the contents of this package. If you suspect that there is damage or missing parts, contact Quilt Display Products at (937) 506-0032 between the hours of 8:00 AM and 5:00 PM Eastern Standard Time for directions on how to proceed. Please keep the original package and packing material in the event that you need to return the product to us.

THE CONTENTS OF THE BOX

Make note of the existence of the following contents.

1. Side Panels (quantity of two)
2. Structural Rails with Threaded Inserts (quantity of two)
3. Hanging Rails (quantity of two)
4. Shouldered Connector Bolts (quantity of four)
5. Felt Furniture Pads (quantity of four)
6. Hex Allen Wrench (quantity of one)

ASSEMBLY PROCEDURE

Review the figure on page three and identify the components listed above. Begin with Step 1 and follow the directions exactly. When you have finished assembling your quilt stand, place a quilt or two over any of the top three rails and display your creations in a prominent place in your home. Now stand back and enjoy!

Step 1

Remove the adhesive backing from the felt furniture pads and carefully attach one to the bottom of each of the four legs, taking care to center it as best as possible. The bottom of the leg is opposite the end with the chamfered edges.

Step 2

Assemble the structural rails to one of the side panels with the shouldered connector bolts. Insure that the rails are fitted inside the pockets on the legs of the side panel. Securely tighten both of the shouldered connector bolts with the Hex Allen wrench.

Step 3

Place the partially assembled quilt stand on end with the structural rails pointing up. Place the lid of the box under the side panel to protect it from scratches while you complete the assembly.

Step 4

Position the remaining side panel onto the structural rails while capturing the hanging rails in the pockets located on the legs of both side panels. Secure the side panel with the remaining two shouldered connector bolts. Tighten the bolts by hand only enough to hold the assembly together.

Step 5

Set the assembled quilt stand up in its normal position on a flat surface and tighten the shouldered connector bolts installed in step 4 with the hex Allen wrench. This completes the assembly of your quilt stand.
